

Information Technology (Intern / Co-op) Position Detail

Thank you for your interest in the position described below and our Company. Below is a detailed description of our Company, the job posting, and the minimum requirements necessary.

Company Introduction

I-CON Systems, Inc. (I-CON) is a 20 year old manufacturing company located in Oviedo, FL (10 minutes outside of Orlando, FL). Our corporate offices and manufacturing operations are based out of a 55,000 SQF state-of-the-art facility. I-CON is the leading manufacturer of intelligent plumbing controls in the penal and correctional industry. We are looking for a motivated and experienced individual to work as an Information Technology Co-op student, and which meets the requirements described below.

Position Detail

Perform all duties necessary in order to implement and maintain the I-CON IT infrastructure, while researching and developing new technologies and applications.

- Installs, configures and maintains personal computers, network cabling, and other related equipment, devices and systems; adds or upgrades and configures disk drives, printers and related equipment
- Troubleshoots networks, systems and applications to identify and correct malfunctions and other operational difficulties
- Develops and conducts various training and instruction for system users on operating systems and other applications; assists users in maximizing use of networks and computing systems
- Provides computer orientation to new and existing company staff
- Investigates user problems and identifies their source; determines possible solutions; tests and implements solutions
- Works with vendors to open, manage, implement, and close support cases when internal troubleshooting efforts are exhausted

Minimum Position Consideration Requirements:

- Junior or Senior Level Information Technology student with a minimum 3.0 GPA. Students below junior level with IT related work experience may be considered.
- Ability to install, configure and maintain personal computers, networks and related hardware and software
- Knowledge of computer and/or network security systems, applications, procedures and techniques
- Ability to identify and resolve computer system malfunctions and operations problems
- Ability to learn and support new systems and applications

OUR MISSION

SOLVE

The underlying premise of why we are here is simply to solve the problems of our customers, country, communities, and neighbors.

INNOVATE

From its formation in 1994, "I-CON" has always stood for one thing above all others - the ability to Innovate.

CREATE

In an effort to achieve our mission and objectives for I-CON, there is only one way to get there...Create.

LEAD

It's a call to action that engages our unceasing curiosity, our passion, and our drive to be first in everything that we do. It's not just maintaining the status quo or managing what worked yesterday, but instead taking on the responsibility to change because change is the essence of what it means to lead.
